

Steel Solutions, Inc.

Affiliated with Chandler Holmes Co.

Racks, Equipment and Material Handling Solutions for Metal Service Centers

- Turnkey material storage and handling systems
- Design assistance and consulting
- Engineering services
- Installation available nationwide
- Specialists in cantilever rack for the metals industry
- Expertise in custom, seismic and super heavy racking
- Machinery and equipment for metal service centers
- We also buy and sell quality used rack and equipment

We offer Metal Service Centers unmatched expertise from 30 years of experience in racking, equipment and material handling. Whether your plant is small or large we have the knowledge to offer the best solution custom tailored to your needs and budget.

We also have the most experienced engineering and installation people in the industry to ensure a fast and reliable setup of the highest quality.

We will work with you as consultants on plant layout, equipment compatibility and obtaining proper permits when required.

We handle it all for you, from concept to installation!

"CH Steel Solutions, Inc. is committed to providing the absolute best quality products, service and value for our customers and to help our customers be more profitable."
